1. The drawings were received on 12/20/06. These drawings are approved as to content. However black markings make them of insufficient quality for publication and formal replacement drawings are required.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Smith '877, of record, in view of either Flood et al '513 or Tucker '598.

To have provided the bottle of Smith '877 with a child proof cap or cap with a safety lock to prevent a child from opening the cap and spilling the contents would have been obvious in view of such teaching by either Flood et al or Tucker.

4. Claims 1, 3-6, 9-13, 15-19, 21-24 and 29-32 are allowed while claims 2, 8, 14, 20 and 25-28 have been canceled.

5. Applicant's arguments, see page 13 of the amendment, filed 12/20/06, with respect to the objection to the drawings and rejection of claims 1 and 13 have been fully considered and are persuasive. The objection to the drawings and rejection of claims 1 and 13 have been withdrawn.

6. Applicant's arguments with respect to claim 7 have been considered but are moot in view of the new ground(s) of rejection.

7. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information
